**- PRESS RELEASE -**

**Bruno de Miribel joins LFB as Executive Vice President Finance**

Bruno de Miribel has joined LFB as Executive Vice President Finance, on September 20, 2021. In this position, he reports directly to Denis Delval, Chairman and CEO of LFB, and is a member of the company's Executive Committee. He is responsible for Business Controlling, Treasury, Financial Operations, Accounting, Purchasing and IT.

**Denis Delval, Chairman and CEO of LFB, comments:** *"I am pleased to welcome Bruno in our Executive Committee. During his career, he has acquired a solid experience in many fields. He has managed development and transformation projects in France and abroad. During his past experiences, he has developed a real strategic vision and mastered the role of business partner. The management of teams in France and abroad and his experience in implementing a centralized IT tool (ERP) are also assets that he will be able to put to good use within our company. I am very happy to be able to count on his broad experience which will be of great value for the continuation of LFB's transformation."*

**Bruno de Miribel added:** *"I am very pleased to join LFB given its mission to provide treatments to patients living with serious and often rare diseases. I am inspired by the ethical commitment of the LFB teams and I am proud to join its Executive Committee, headed by Denis Delval. I will put all my experience and all my energy to contribute to the success of the transformation plan of LFB, which started almost 4 years ago."*

Bruno de Miribel is a graduate of Centrale Paris. He started his career in strategic consulting at AT Kearney. He then spent 20 years in the Danone group, starting at LU where, after various positions in Purchasing and Finance, he was appointed Chief Financial Officer in 2008. In 2010, he moved abroad as CFO Mexico and then Latin America for Danone's Waters division. In 2014, he returned to France to design and implement a global transformation program of Danone's Finance function then took on the role of CFO Europe for the Medical Nutrition business (Nutricia), a world close to the pharmaceutical industry, and in his last role he led the integration program of Danone's Medical Nutrition and Baby Nutrition businesses, impacting the growth and development of these entities within the Group.

**About LFB**

LFB is a biopharmaceutical group that develops, manufactures and markets plasma-derived medicinal products and recombinant proteins for the treatment of serious and often rare diseases. Created in France in 1994, LFB is today one of the leading European companies providing plasma-derived and recombinant medicinal products to healthcare professionals. Its mission is to offer patients new treatment options for unmet needs in three major therapeutic areas: immunology, haemostasis and intensive care. LFB's current market portfolio includes 15 biomedical products sold in about 30 countries.
